

MAKE YARMOUTH FASTER!

SAY YES TO HIGH
SPEED BROADBAND

A unique opportunity has arisen whereby high speed broadband could be made available in the Yarmouth Exchange area which includes Ningwood, Wellow, Thorley, Westhill and Yarmouth.

To make it happen we need to demonstrate widespread demand and support for this project from local residents and businesses.

As the allocation of this funding is on a competitive basis we are asking for your help to simply complete an online document in support of this project.

Confirm your support, without commitment to taking up the broadband

Simply visit:

www.makeyarmouthfaster.com

complete the very short online form by Tuesday 31 August 2010

With enough local support we can secure this limited funding to the Yarmouth Exchange area by way of a Community Interest Company. This company will operate a not for profit service offering much higher speed broadband at a comparable cost to existing offerings.

LOCAL CONTRACT SUPPORT • INCREASED BROADBAND SPEED

COMMUNITY DRIVEN • EASE OF TRANSFER • COMPETITIVE PRICE

This project is being supported by:

Yarmouth Town Council
Yarmouth Business Association
Yarmouth Harbour Commissioners
Country Land & Business Association

*Completion of the online form will not constitute a commitment or obligation to sign up to for the service but merely shows your support.
All information will be treated in the strictest confidence and will only be used for purposes of this funding bid.*
